

WSTIMS For Windows

Fixes for Version 1.0.0.64

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	1.0.1.22	Tow Boat Use	Need to update boat list for 2011 boats	Updated
Closed	H	1.0.1.22	Slalom Entry	Modify description of boat times	
Closed	H	1.0.1.22	Import	Team codes on non collegiate tournament is causing import problems.	There was an error being generated when creating team records for the non-collegiate teams that has been corrected.
Closed	H	1.0.1.22	Slalom Boat Times	Descriptions for slalom times are leading to misunderstandings.	Updated descriptions to be more similar to the information shown on the ZO display and what is described in ABT chart
Closed	M	1.0.1.22	Official Assignment	Exception being generated after selecting official to be assigned and then clicking on another row.	Data was being saved but there was an exception being generated when attempting to create a new row for more seamless additions. Change made to eliminate this error.
Closed	M	1.0.1.22	National Record	Load list with national record data. Add support for checking for national records when scores are posted	Loaded 3 new lists for records. AWSARecords, IWWFRecords, NCWSARecords. Checking for records each time score is saved.
Closed	H	1.0.1.22	Boat Use	Removing model year value is not being saved	Corrected
Closed	H	1.0.1.22	Add Member	Exception displayed when attempting to add a new member	Exception was caused when no records were found with a temporary member number. This was used to set the next available number
