

WSTIMS For Windows

Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	1.0.1.74	Riunning Order	Slalom and jump judges forms are printing only 1 skier per page from running order by round	Fixed
Closed	H	1.0.1.74	Riunning Order	Exception encountered when printing jump judges form	Fixed
Closed	M	1.0.1.74	Riunning Order	Jump judges forms are printing only 1 division per page and many divisions only have 1 skier per division	changed to print sub-titles in between divisions but not page break.
Closed	H	1.0.1.76	Official Work Record	Records on master are getting updated by imports from satelite when master is more up to date	The Official Work Record entries was not properly updating the LastUpdateDate and therefore imports were updating even when master was more up to date. This has been corrected.
Closed	L	1.0.1.76	Slalom Entry, Trick Entry, Jump Entry	Need a way to view the date time stamp for a slalom or jump pass to help with searching DVR for video.	Added bubble help on the round cell on the slalom and jump recap grids. When you hover over this cell it will show the LastUpdateDateTime for the pass. This same information can be viewed on the trick window in the skier list when hovering over the score cell.
Closed	H	1.0.1.76	Jump Entry	Skier had a fast 82M segment and a good 41M segment. Results indicated a fast first segment so mandatory reride if longest but showed the score protected and that is not correct. The score should not have been protected.	Corrected. Mandatory reride if longest of set, may improve, not protected
Closed	H	1.0.1.76	Records	Update records
