

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	L	1.0.1.49	Slalom Entry	Support for sending scores to a web site	Added functionality to optionally activate a feature to send scores as they are entered to a website. Scores for a skier can also be sent after the fact to allow a scorer to catch up on missed skiers.
Closed	L	1.0.1.49	Trick Calc	Support for sending scores to a web site	Added functionality to optionally activate a feature to send scores as they are entered to a website. Scores for a skier can also be sent after the fact to allow a scorer to catch up on missed skiers.
Closed	L	1.0.1.49	Jump Entry	Support for sending scores to a web site	Added functionality to optionally activate a feature to send scores as they are entered to a website. Scores for a skier can also be sent after the fact to allow a scorer to catch up on missed skiers.
Closed	H	1.0.1.49	Trick Calc	A Skier has a sequence of WO, 5B, BB and the system indicated the BB was not a legal reverser of a WO. The BB is a legal reverse for a 5B so not sure why it is going back to the previous trick.	Enhancements were required to handle different tricks that are from the same rule number.
Closed	M	1.0.1.49	Chief Judge Report	Validation is preventing the report from being generated for ELR tournaments without all data being input but this should not be required for ELR tournaments	The method to recognize an ELR tournament was not being handled correctly. Processing corrected.
