

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	L	1.0.1.79	Chief Judge Report	Need to analysis the rope data when exporting to the text file. Access is idenfying some data as numerics if the field does not contain any non numeric characters	done
Closed	M	1.0.1.79	NCWSA Scorebook	Need correction to placements to indicate ties when appropriate	Added functionality to recognize ties for team results in all team reports and the collegiate scorebook.
Closed	M	1.0.1.79	Team Management	Need option to export the team list for import to another system.	Done
Closed	H	1.0.1.79	Trick List	Recognize out of course fall and what should happened depending on skier class	Done
Closed	H	1.0.1.78	Pring Jump Judge Forms	Page break on event group	Done
Closed	L	1.0.1.78	Pring Jump Judge Forms	Add ramp height to skier information	Done
Closed	M	1.0.1.78	Print Judge Judges Forms	Include team code for collegiate tournaments	Done
Closed	M	1.0.1.78	Print Slalom Boat Judges Forms	Include team code for collegiate tournaments	Done
Closed	M	1.0.1.78	Print Slalom Recap Forms	Include team code for collegiate tournaments	Done
Closed	M	1.0.1.78	Print Trick Judges Forms	Include team code for collegiate tournaments	Done
Closed	L	1.0.1.78	Running Order	Create XML files for SplashEye	Done
Closed	M	1.0.1.78	Team Management	Need to recognize a rotation of zero as rotation 10	Done
Closed	H	1.0.1.76	Jump Entry	Skier had a fast 82M segment and a good 41M segment. Results indicated a fast first segment so mandatory reride if longest but showed the score protected and that is not correct. The score should not have been protected.	Corrected. Mandatory reride if longest of set, may improve, not protected
Closed	H	1.0.1.76	Official Work Record	Records on master are getting updated by imports from satelite when master is more up to date	The Official Work Record entries was not properly updating the LastUpdateDate and therefore imports were updating even when master was more up to date. This has been corrected.
Closed	H	1.0.1.76	Records	Update records	
Closed	L	1.0.1.76	Slalom Entry, Trick Entry, Jump Entry	Need a way to view the date time stamp for a slalom or jump pass to help with searching DVR for video.	Added bubble help on the round cell on the slalom and jump recap grids. When you hover over this cell it will show the LastUpdateDateTime for the pass. This same information can be viewed on the trick window in the skier list when hovering over the score cell.
Closed	H	1.0.1.74	Riunning Order	Slalom and jump judges forms are printing only 1 skier per page from running order by round	Fixed
Closed	H	1.0.1.74	Riunning Order	Exception encountered when printing jump judges form	Fixed
Closed	M	1.0.1.74	Riunning Order	Jump judges forms are printing only 1 division per page and many divisions only have 1 skier per division	changed to print sub-titles in between divisions but not page break.
Closed	H	1,0.1.73	Print Boat Judge Forms by Round	Skiers were not in order on the forms by groups or divisions and consequently there were many page breaks.	Sort order for this print has been corrected.
Closed	H	1,0.1.73	Print Jump Judge Forms by Round	Exception encountered when attempting to print forms from running order by round	Incorrect information was being passed. Corrected.
Closed	M	1.0.1.71	OD.TXT Export	Individuals exported to this file should only include those receiving official credit	Added filter on export
Closed	H	1.0.1.71	Slalom Entry	Scores for international divisions seems to be 6 more than it should be.	The issue was when international divisions were being used with AWSA rules. Score was not properly handling the pass above maximum speed for skiers using an international divisions but tournament rules was set to AWSA.

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	1.0.1.71	Boat Use	Updating credit check boxes does not always seem to be properly updating	Value was not being accepted until the user tabbed away from box. Enhanced processing to automatically move focus to the next cell when a check box is updated.
Closed	L	1.0.1.69	CodeValueList	Updated records for AWSA, IWWF, and NCWSA	Updated
Closed	M	1.0.1.69	Jump Entry	When calculating distances using meters the meter reading entry fields should be after the entry fields for the boat time. The times are always called before the meter readings	Done
Closed	L	1.0.1.69	Slalom Entry, Trick Entry, Jump Entry	Add new option to the Live Web feature to post scores to a Twitter account.	A new optional feature was added to the Live Web dialog to post scores to Twitter. Either a default account can be used or an account of the users choosing.
Closed	L	1.0.1.69	Tournament Management	Set number of team skiers to 10 when "All Star" is in the tournament name for a collegiate tournament to accommodate the collegiate all start competition that has 10 skiers per team.	Done
Closed	H	1.0.1.68	Install	Issues were encountered when installing the program for the first time on a computer	Found some inadvertent references that were not available when installing and this caused the install to fail. This has been correct.
Closed	M	1.0.1.68	Jump Entry	Errors were encountered calculating distances when using meters	Found and fixed an error.
Closed	M	1.0.1.68	Running Order	When you using the filter bar for collegiate tournaments only one of the selection divisions is being shown when more than one division has been checked.	Fixed
Closed	M	1.0.1.68	Team Setup	Need collegiate all stars to default number of team skiers to 10	Default number of team skiers to 10 when tournament name has "all star" contained within it.
Closed	L	1.0.1.66	Database Upgrade	Error messages being encountered during the upgrade processing. Bypassing the messages does not seem to create a problem but users are unclear of the meaning	I have eliminated most of the error messages but there are still some that occur that it is not possible to eliminate. Any error that contains "table not found" can be ignored.
Closed	H	1.0.1.66	Running Order	New division filter is not working	Found and correct error in the filter selection.
Closed	M	1.0.1.66	Running Order by Round	Unable to print judge forms from running orders by round	Added functionality to allow printing for judges forms from the running order by rounds. Added the ability to filter this list by age divisions also so the run order for a particular division can be selected and printed.
Closed	H	1.0.1.66	Team Management	Validation errors are being thrown on spacing rows	Enhanced validation to skip spacing rows and only validate on rows with actual data.
Closed	H	1.0.1.65	Jump Entry	New jump times are available for 2013	Updated jump time chart. Primarily the 41M segment fast time should now be set to the same as the standard 41M fast time. This has been completed
Closed	L	1.0.1.65	Running Order	Would like an easier way to filter the list by the event group	Added a set of checkboxes for each event group in the tournaments event. There is also a checkbox for "All". Clicking on the "All" checkbox to unselect it will unselect all groups. Check the desired boxes and then click refresh.
Closed	L	1.0.1.65	Running Order by Round	Error encountered when selecting head-to-head with no groups	Corrected error discovered in data retrieval

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	M	1.0.1.65	Slalom Entry, Trick Entry, Jump Entry	Generate boat list from available boats for tournament	Boat selection list for the event entry windows is now generated based on boats available for the tournament as determined by the boat use report. The "select" and "unlisted" entries will always be available.
Closed	M	1.0.1.64	ExportTourSummary	Need to add move statistics to this export. Need items such as number of skiers per event per division. Some regions use to calculate tournament head tax. Others would find this useful information or at least interesting information	Added the following stats: * Count of skiing participants * Count of non skiing participants * Event skier counts by division * Event skier counts by group
Closed	H	1.0.1.64	Import	Issues with importing trick, slalom, or jump passes when deletes have been made.	There were issues encountered with importing scores on a few occasions. I tracked this down to situation where data existed on the master but changes were made on the satellite and then re-imported. This seemed to be more of a problem for tricks but did see examples in Slalom and Jump. I enhanced the import processing to recognize when scores were being import and ensure that all detail was properly cleaned up to ensure updated data was imported cleanly.
Closed	M	1.0.1.64	Jump Entry	If using RTB and 41M is fast but less than division max than optional reride but not mandatory. If fall also optional reride. Messaging is saying mandatory reride	If a skier requests RTB (Return to Baseline) and the 41m segment time is fast for the RTB tolerance, but still within the allowed FSS (Fast second segment) tolerance, then the skier does not receive a mandatory reride on a successful jump. If such a 41m segment time (Fast for RTB but OK for FSS) should occur on a fall, then a reride is optional.  This does not change the basic principle of rule 9.09E; i.e., if the 41m segment is too fast (for the FSS tolerance), then a mandatory reride will be given if best in set and no improvement.
Closed	M	1.0.1.64	Jump Entry	Error when exporting data when filtered by Div	Enhanced processing to recognize that Div must be converted to AgeGroup for export filtering.
Closed	M	1.0.1.64	Jump Summary	Increase font size for printing for better readability	Done
Closed	L	1.0.1.64	Jump Team Summary	Need to include an option to view the collegiate combined team score	
Closed	H	1.0.1.64	Official Work Assignment	Consider adding a feature to copy the officials from one event group to another.	This window has a new feature that will copy all officials that have worked in the visible event group and round to another event group or round that doesn't have any assignments
Closed	M	1.0.1.64	Official Work Record	Add support for managing officials ratings.	Created a new function accessible from the Official Work Record window to access a window to update an official's ratings. The new feature is access with an "Edit" icon
Closed	H	1.0.1.64	Officials Contact Info	Not handling an apostrophe in the address for the contact name.	Enhance saved processing to handle apostrophe in all addresses and emails
Closed	M	1.0.1.64	Overall Summary	Increase font size for printing for better readability	Done

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	1.0.1.64	Running Order	Need ability to change the class for all skiers in a division	A new icon has been added to the Running Order window labeled "Class Change". Clicking on this icon will popup a window to select an event group, from class, and new class. When the OK button is clicked the information will be used to update all skiers in the selected event that meet the criteria. Then the running order view will be refreshed.
Closed	M	1.0.1.64	Running Order	When selecting skiers for elimination round want to be able to specify different criteria for different divisions. E.g. 3 skiers for juniors, 4 for seniors	Added the ability to perform the elimination selection on a division basis. Previously you had to do the whole round at once but that is no longer required. The round running order can be done incrementally division by division
Closed	M	1.0.1.64	Running Order	Would like to have the score used for selection purposes in head-to-head and elimination process saved with running order and shown as the ranking score on the skier list for the event entry windows.	Score used in selection is now attached to the round running order and used as the ranking score when a round running order is available.
Closed	M	1.0.1.64	Running Order	Need ability to update the Ranking Score, Ranking Rating, Trick Boat, and Jump Height	Enhanced window to update the Ranking Score, Ranking Rating, Trick Boat, and Jump Height
Closed	L	1.0.1.64	Running Order	Would like an additional sub header available for information purposes on print outs	Added a text box to add an optional header for the running order print.
Closed	L	1.0.1.64	Running Order	Would like the ability to print boat, judges, and scorers forms directly from the running order window.	A new feature has been added to the running order window to print judges and scorers forms. Use the "Print Forms" icon to print the forms for any skiers currently visible in the running order window. The Trick forms will print 3 forms per skier per round. Also for tricks with 2 rounds the forms will print each skier side by side as there are 2 skiers per page.
Closed	L	1.0.1.64	Running Order	Tournament class automatically sets at highest sanction for tournament. Can you make the program set R for OM-OW and L for everyone else?	When a skier is added to the tournament registration the skier will be assigned to an appropriate class based on the tournament class. For a class R or A or B tournament OM and OW will be assigned to R and B1/B2/M7 up, G1, G2, W7 up will be assigned to E.
Closed	L	1.0.1.64	Slalom Entry	Error when exporting data when filtered by Div	Enhanced processing to recognize that Div must be converted to AgeGroup for export filtering.
Closed	M	1.0.1.64	Slalom Summary	Increase font size for printing for better readability	Done
Closed	L	1.0.1.64	Slalom Team Summary	Need to include an option to view the collegiate combined team score	
Closed	L	1.0.1.64	Team Jump Summary	Modify print format for better readability.	Done
Closed	L	1.0.1.64	Team Jump Summary	Provide dialog to select whether to print the team summary or the team skier detail	Done
Closed	L	1.0.1.64	Team Slalom Summary	Modify print format for better readability.	Done
Closed	L	1.0.1.64	Team Slalom Summary	Provide dialog to select whether to print the team summary or the team skier detail	Done
Closed	M	1.0.1.64	Team Summary	Add team placements and a team results without skier detail	Changed the format and method of printing. A separate set of pages are now being generated for just the team results and then a separate set is generated with the team details.
Closed	L	1.0.1.64	Team Summary	Modify print format for better readability.	Done
Closed	L	1.0.1.64	Team Trick Summary	Modify print format for better readability.	Done

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	L	1.0.1.64	Team Trick Summary	Provide dialog to select whether to print the team summary or the team skier detail	Done
Closed	H	1.0.1.64	Tournament Package	Need to add scorebook parameters as attributes of the tournament rather than as preferences.	Added feature to set reporting parameters as part of the tournament setup. Also changed all report specific parameters to be tournament attributes that will be transferred with the tournament data
Closed	H	1.0.1.64	Trick Calc	A new rule has been passed for 2013 allowing certain flips to be used as positional trick. For example, a BFLB can now be directly followed by BFLF, followed by RBFLB, and then RBFLF	Enhanced code to handle the new rule
Closed	H	1.0.1.64	Trick Calc	A new rule has been passed for 2013 that allows a skier to make a repeat effort to perform a reverse without having to repeat the original. For example, Slide, followed by a reverse Slide, and then a repeat reverse Slide. If the first reverse it is not credit and the second is credit than a score can be given	Enhanced code to handle the new rule
Closed	L	1.0.1.64	Trick Entry	Add descriptions to trick list	Added descriptions to the list of tricks that can be viewed from the tools menu or from the View Trick List button on the trick entry form.
Closed	M	1.0.1.64	Trick Entry	Error when exporting data when filtered by Div	Enhanced processing to recognize that Div must be converted to AgeGroup for export filtering.
Closed	M	1.0.1.64	Trick Summary	Increase font size for printing for better readability	Done
Closed	L	1.0.1.64	Trick Team Summary	Need to include an option to view the collegiate combined team score	
Closed	M	1.0.1.63	Import	For collegiates allow "OF" in the event group even if division is a collegiate division	Done
Closed	M	1.0.1.63	Import	Skiers are marked as "Not Ready"	Non-skiing officials with an age division and nothing in the membership column were being marked as "Not Ready" but these should be default to ready.
Closed	H	1.0.1.63	Official Work Assignment	If all values for an event group are eliminated the official assignments can be lost and not exported	Added functionality to the Running Order window to warn when the last skier for an event group is being removed. The warning only occurs if there are existing official assignments for the event group about to be eliminated. An option will be offered to change the event group for the assigned officials.
Closed	L	1.0.1.63	Scorebook Html	If teams are available include the results in the HTML file	Done for AWSA and IWWF versions.
Closed	H	1.0.1.63	Skier Performance File	The program was encountering an exception and terminated processing while attempting to generate the skier performance file from the tournament package window.	There was an issue that the processing was overloading the database when more than 200 skiers were being processed. The processing was enhanced to more efficiently access the required database so the database would not become overloaded regardless of the number of skiers that need to be processed.
Closed	M	1.0.1.63	Slalom Entry	If a pass is added to a skier then subsequently deleted the 2 slowest speeds that were hidden are now visible.	Fixed issues that were allowing speeds below a divisions minimum to be shown.
Closed	L	1.0.1.62	Scorebook HTML	Add team results when teams are available	Added a combined team results to scorebook when teams are detected for tournament.

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	L	1.0.1.62	Scorebook Html	Show team code in all the event summary reports	This was only an issue with the IWWF version. It has been corrected.
Closed	H	1.0.1.62	Slalom Entry	Scores for collegiate divisions at the maximum speed are 6 bouys low.	Fixed
Closed	H	1.0.1.62	Team Summary	Need to include an option to view the collegiate combined team score	Modified the "No Groups" reporting option. Changed the label to "Combined". The combined report for collegiate will combine the specified number of skiers from the CM and CW to a combined summary. For AWSA and IWWF it will select the best scores from any skier assigned to the specified team regardless of division.
Closed	H	1.0.1.62	Tournament List	Remove class S and T from available values	Done
Closed	M	1.0.1.61	Overall Summary	Need to add filter for qualified and eligible for overall	Done. Added new filter to limit Overall list to those skiers that are both 'Eligible' (registered for required # of events) and 'Qualified' (participated in required events).
Closed	M	1.0.1.61	Overall Summary	Overall not recognizing ties	Added functionality to identify ties
Closed	M	1.0.1.61	Scorebook Html	Overall not recognizing ties	Added functionality to identify ties
Closed	L	1.0.1.61	Trick Entry	Need to be able to indicate that a skier participated but fell before the course more than the allowed number of times	Allowed use of Skier Done button even if no tricks were entered. A reason is required but if provided than a score of zero will be recorded for the skier.
Closed	M	1.0.1.60	Jump Team Summary	Would like option to filter results by division	
Closed	M	1.0.1.60	Jump Team Summary	Team scoring for IWWF team events is based on 1000 points with 1000 points being awarded to the team skier in each event with the highest score	Done
Closed	M	1.0.1.60	Jump Team Summary	Add option to print skier list in addition to the team results.	Skier list is printed when team results is hidden. Sorted by Team and skier name
Closed	M	1.0.1.60	Master Team Summary	Team scoring for IWWF team events is based on 1000 points with 1000 points being awarded to the team skier in each event with the highest score	Done
Closed	M	1.0.1.60	New Report	Awards report	Added a new report that is similar to the event summary report but has a field to provide the number of award positions. Then the results are filtered for those meeting the award positions
Closed	H	1.0.1.60	Performance Data Export	Should show 1825 for minimum rope length for IWWF divisions	Corrected processing to show proper minimum speed and rope length for IWWF divisions and class L/R skiers
Closed	M	1.0.1.60	Running Order by Round	Check jump selection to be sure IWWF events are using meters	When copying from previous round scores the process was not using the IWWF processing. This has been corrected.
Closed	M	1.0.1.60	Slalom Entry	Set minimum speed to 31kph / 19.3mph for NCWSA	Done
Closed	M	1.0.1.60	Slalom Team Summary	Would like option to filter results by division	
Closed	M	1.0.1.60	Slalom Team Summary	Team scoring for IWWF team events is based on 1000 points with 1000 points being awarded to the team skier in each event with the highest score	Done
Closed	M	1.0.1.60	Slalom Team Summary	Add option to print skier list in addition to the team results.	Skier list is printed when team results is hidden. Sorted by Team and skier name
Closed	M	1.0.1.60	Trick Team Summary	Would like option to filter results by division	

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	M	1.0.1.60	Trick Team Summary	Team scoring for IWWF team events is based on 1000 points with 1000 points being awarded to the team skier in each event with the highest score	Done
Closed	M	1.0.1.60	Trick Team Summary	Add option to print skier list in addition to the team results.	Skier list is printed when team results is hidden. Sorted by Team and skier name
Closed	L	1.0.1.59	Jump Entry	Add score to skier list grid	
Closed	L	1.0.1.59	Slalom Entry	Add score to skier list grid	
Closed	H	1.0.1.59	Slalom Team Summary	Errors when generating. Showing issue with PlcmtTour missing	
Closed	H	1.0.1.58	Official Work Assignment	Rows are being added when updates are made and creating extra empty rows.	Corrected issue with validation to ensure extra rows are not added.
Closed	M	1.0.1.58	Official Work Assignment	Pressing enter on the last name in list returns the row before that.	Fixed the issue by adding a blank row to the bottom of the list
Closed	H	1.0.1.58	Running Order	Errors being encountered when using the order by round feature	Fixed errors that were encountered due to changes to support international divisions.
Closed	H	1.0.1.58	Summary Reports	Should not use division order as sort	Reverted to sorting by divisions.
Closed	L	1.0.1.58	Trick Entry	IWWF only allows 6 flips	Fixed code to look for 6 flips and limit to that for IWWF rules are class L/R
Closed	L	1.0.1.58	Web Scorebook	Trick title in jump column	Issue was in IWWF version of championship report. Now fixed.
Closed	H	1.0.1.57	Jump Summary	Skiers tied but had a runoff but summary is still showing a tie	Found and corrected an issue with retrieving jump runoff data.
Closed	L	1.0.1.57	Member List	Remove all not working	Corrected logic to delete all members when used
Closed	H	1.0.1.57	Running Order	Not able to set skier to class L for when using the regional or national tournament class of B or A	Updated processing to use the corresponding event skier class associated with the tournament class
Closed	H	1.0.1.57	Tournament List	When you change the tournament class it changes all skiers with the previous class to the current class. However it is using the tournament class itself and not the corresponding event class	Updated processing to use the corresponding event skier class associated with the tournament class
Closed	L	1.0.1.57	Trick Entry	W or WB calculated half of one ski points in an AWSA tournament.	Need to add validation to prevent this for AWSA and IWWF tournaments
Closed	H	1.0.1.57	Trick Summary	Skiers tied but had a runoff but summary is still showing a tie	Found and corrected an issue with retrieving jump runoff data.
Closed	M	1.0.1.56	Team Management	Exception occurred when generating teams by state, region, federation	Fixed issues with generating the team data. Also fixed issues that were occurring when deleting a team.
Closed	H	1.0.1.56	Trick Entry	Exception occurred when printing a skiers trick pass	The new total points column was null on the last line when information is first entered. Added the ability to handle this situation.
Closed	H	1.0.1.54	Boat Use	Add validations to ensure that credit has been applied or that it was intentional not given credit	Added warning message when Tournament Package Build window is opened if a boat is added but has no indicator of use or credit. This warning is to ensure that it wasn't inadvertent that nothing was checked for a boat.
Closed	M	1.0.1.54	Jump Summary	Hide group unless placement organization is using group	Done
Closed	H	1.0.1.54	Official Work Record	When chief official is checked it is not always updating the name in the tournament record	I've simplified the update process to ensure the updates are consistently applied.

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	M	1.0.1.54	Running Order	For eliminate option the order should be reversed. Currently the order really contains the seeding therefore the actual order should be reversed from that.	Changed sort order to reverse of seeding.
Closed	H	1.0.1.54	Slalom Summary	Sort and Filter are not working	Corrected processing to properly utilize user supplied sort and filtering options
Closed	L	1.0.1.54	Trick Entry	Would like running totals as scores are calculated	Added running totals on trick forms and print version.
Closed	L	1.0.1.54	Trick Entry	Add score to skier list grid	Added score to grid
Closed	M	1.0.1.54	Trick Summary	Hide group unless placement organization is using group	Done
Closed	H	1.0.1.53	Boat Use	Not saving current row when clicking on the add icon.	Enhanced processing to better detect when changes had been made to ensure no updates are lost.
Closed	H	1.0.1.53	CodeValueList	L2 max jump speed is 48 and should be 51	Corrected
Closed	H	1.0.1.53	Database Upgrade	Upgrade seems to be dropping data occasionally	Unsure why this is happening. I think it has to do with a new database being copied inadvertently. Not sure yet how to prevent it but I've added a timestamp to backup so that it is never overlayed and should allow recovery of any version
Closed	M	1.0.1.53	Jump Scorebook	Speed is showing as zero	Wrong field was being displayed on report
Closed	M	1.0.1.53	Jump Time Report	Errors in calculations causing exceptions	Errors caused by incorrect calculations when time recording changed from 1,2,4 to 1,3,4
Closed	M	1.0.1.53	Master Scorebook	Jump speed is showing as zero	Wrong field was being displayed on report
Closed	H	1.0.1.53	Skier Performance File	Jump speed is showing as zero	Wrong field was being displayed on report
Closed	H	1.0.1.53	Tournament Package	Some were encountering an exception when running the tournament package	Exception was caused when a default value was being improperly set. This only happened when the master scorebook window had not been previously been used. Default value is now being properly set so exception should no longer occur,.
Closed	M	1.0.1.53	Web Scorebook	Jump speed is showing as zero	Wrong field was being displayed on report
Closed	H	1.0.1.52	Jump Scorebook	Best score is duplicated for all rounds	Corrected processing to use specified score for determining placement and now properly showing all scores for all rounds
Closed	H	1.0.1.52	Master Scorebook	Best score is duplicated for all rounds	Corrected processing to use specified score for determining placement and now properly showing all scores for all rounds
Closed	H	1.0.1.52	Skier Performance File	Best score is duplicated for all rounds	Corrected processing to use specified score for determining placement and now properly showing all scores for all rounds
Closed	H	1.0.1.52	Slalom Scorebook	Best score is duplicated for all rounds	Corrected processing to use specified score for determining placement and now properly showing all scores for all rounds
Closed	H	1.0.1.52	Trick Scorebook	Best score is duplicated for all rounds	Corrected processing to use specified score for determining placement and now properly showing all scores for all rounds
Closed	H	1.0.1.52	Web Scorebook	Best score is duplicated for all rounds	Corrected processing to use specified score for determining placement and now properly showing all scores for all rounds

## WSTIMS For Windows

### Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	1.0.1.51	Chief Judge Report	Exception encountered for ELR tournaments during Tournament Pacakage Build	Errors were found in the data validation for this format. Also corrected processing to better handle empty data fields and jump meter data
Closed	M	1.0.1.51	Master Scorebook	Placements for elimination format needs improvement	Enhanced functional for "final" scores option. I believe this will solve this problem.
Closed	H	1.0.1.51	Master Scorebook	Placements using the "Final" option are not properly calculating placements	Enhanced placement calculation for the Final option to use the last round skied for determining placement. This method assumes that those in the later rounds are an elimination format and therefore are placed higher than those that didn't ski the later rounds
Closed	H	1.0.1.51	Master Scorebook	Placements for IWWF tournaments are not utilizing tie breakers and runoffs	Enhanced processing to use appropriate tie breakers and runoffs
Closed	M	1.0.1.51	Running Order	Orders for elimination format should be set in the inverse seeding order	Enhanced processing to set running order in the inverse of the skier seeding for elimination format.
Closed	H	1.0.1.51	Slalom Summary	Points calculations is producing a negative value when the socre is less than the minimum allowed. Generally this happens if someone misses their opening pass	checked for this condition and now calculate points based on actual score.
Closed	H	1.0.1.51	Web Scorebook for IWWF	Using wrong methods for calculating 1000 points and determining placements	Created separate methods for IWWF processing for these and fully incorporated the new functionality for the Master Scorebook window, HTML scorebook, HTML scorebook championship version, and the SBK export file
Closed	H	1.0.1.50	Chief Judge Report	Errors encountered for ELR tournaments when generating report	Report was not properly handling the missing data. Add functionality to handle data when it is not available.
Closed	L	1.0.1.50	Live Web	Use new domain name for web references	Change URL references to use the new domain <a href="http://www.waterskiresults.com">www.waterskiresults.com</a>
