WSTIMS For Windows
Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	1.0.1.82	Skier Performance File	Overall score for skiers that only require 2 events is not being calculated correctly when the skier actually skied 3 events	Overall calculation method for this procedure was not using the most current overall calculation method. Changed method and calculation is not working correctly.
Closed	M	1.0.1.82	AWSA Records	Updated records for AWSA, IWWF, and NCWSA	
Closed	L	1.0.1.82	Member Registration	Enhancements	Added City to the member edit window.
Closed	L	1.0.1.82	Member Registration	Enhancements	Added validation to ensure that if a skier division is changed to an international division that the skier is not already registerd in a class less than L or R
Closed	H	1.0.1.82	NOPS Tables	2014 NOPS factors now available	A feature has also been added to the Tournament Package Build window to recalculate the NOPS values for 2014 tournaments scored before version 1.0.1.82 was available. This feature will also rebuild the scorebook, the skier performance file, and rebuild the package ZIIP file.
