WSTIMS For Windows
Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	M	1.0.1.64	Official Work Record	Add support for managing officials ratings.	Created a new function accessible from the Official Work Record window to access a window to update an official's ratings. The new feature is access with an "Edit" icon
Closed	H	1.0.1.64	Official Work Assignment	Consider adding a feature to copy the officials from one event group to another.	This window has a new feature that will copy all officials that have worked in the visiable event group and round to another event group or round that doesn't have any assignments
Closed	H	1.0.1.64	Officials Contact Info	Not handling an apostrophe in the address for the contact name.	Enhance saved processing to handle apostrophe in all addresses and emails
Closed	H	1.0.1.64	Running Order	Need ability to change the class for all skiers in a division	A new itcon has been added to the Running Order window labeled "Class Change". Clicking on this icon will popup a window to select an event group, from class, and new class. When the OK button is clicked the information will be used to update all skiers in the selected event that meet the criteria. Then the running order view will be refreshed.
Closed	H	1.0.1.64	Tournament Package	Need to add scorebook parameters as attributes of the tournament rather then as preferences.	Added feature to set reporting parameters as part of the tournament setup. Also changed all report specific parameters to be tournament attributes that will be transferred with the tournament data
Closed	M	1.0.1.64	Team Summary	Add team placements and a team results without skier detail	Changed the format and method of printing. A separate set of pages are now being generated for just the team results and then a separate set is generated with the team details.
Closed	M	1.0.1.64	Running Order	When selecting skiers for elimination round want to be able to specify different criteria for different divisions. E.g. 3 skiers for juniors, 4 for senors	Added the ability to perform the elimination selection on a division basis. Previously you had to do the whole round at once but that is no longer required. The round running order can be done incrementally division by division
Closed	L	1.0.1.64	Trick Entry	Add descriptions to trick list	Added descriptions to the list of tricks that can be viewed from the tools menu or from the View Trick List button on the trick entry form.
Closed	M	1.0.1.64	Running Order	Would like to have the score used for selection purposes in head-to-head and elimination process saved with running order and shown as the ranking score on the skier list for the event entry windows.	Score used in selection is now attached to the round running order and used as the ranking score when a round running order is available.
Closed	M	1.0.1.64	Jump Entry	If using RTB and 41M is fast but less than division max than optional reride but not mandatory. If fall also optional reride. Messaging is saying mandatory reride	If a skier requests RTB (Return to Baseline) and the 41m segment time is fast for the RTB tolerance, but still within the allowed FSS (Fast second segment) tolerance, then the skier does not receive a mandatory reride on a successful jump. If such a 41m segment time (Fast for RTB but OK for FSS) should occur on a fall, then a reride is optional. This does not change the basic principle of rule 9.09E; i.e., if the 41m segment is too fast (for the FSS tolerance), then a mandatory reride will be given if best in set and no improvement.

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	1.0.1.64	Import	Issues with importing trick, slalom, or jump passes when deletes have been made.	There were issues encountered with importing scores on a few occasions. I tracked this down to situation where data existed on the master but changes were made on the satellite and then re-imported. This seemed to be more of a problem for tricks but did see examples in Slalom and Jump. I enhanced the import processing to recognize when scores were being import and ensure that all detail was properly cleaned up to ensure updated data was imported cleanly.
Closed	L	1.0.1.64	Slalom Team Summary	Need to include an option to view the collegiate combined team score	
Closed	L	1.0.1.64	Trick Team Summary	Need to include an option to view the collegiate combined team score	
Closed	L	1.0.1.64	Jump Team Summary	Need to include an option to view the collegiate combined team score	
Closed	M	1.0.1.64	Running Order	Need ability to update the Ranking Score, Ranking Rating, Trick Boat, and Jump Height	Enhanced window to update the Ranking Score, Ranking Rating, Trick Boat, and Jump Height
Closed	M	1.0.1.64	Slalom Summary	Increase font size for printing for better readability	Done
Closed	M	1.0.1.64	Trick Summary	Increase font size for printing for better readability	Done
Closed	M	1.0.1.64	Jump Summary	Increase font size for printing for better readability	Done
Closed	M	1.0.1.64	Overall Summary	Increase font size for printing for better readability	Done
Closed	L	1.0.1.64	Team Summary	Modify print format for better readability.	Done
Closed	L	1.0.1.64	Team Slalom Summary	Modify print format for better readability.	Done
Closed	L	1.0.1.64	Team Trick Summary	Modify print format for better readability.	Done
Closed	L	1.0.1.64	Team Jump Summary	Modify print format for better readability.	Done
Closed	L	1.0.1.64	Team Slalom Summary	Provide dialog to select whether to print the team summary or the team skier detail	Done
Closed	L	1.0.1.64	Team Trick Summary	Provide dialog to select whether to print the team summary or the team skier detail	Done
Closed	L	1.0.1.64	Team Jump Summary	Provide dialog to select whether to print the team summary or the team skier detail	Done
Closed	M	1.0.1.64	ExportTourSummary	Need to add move statistics to this export. Need items such as number of skiers per event per division. Some regions use to calculate tournament head tax. Others would fine this useful information or at least interesting information	Added the following stats: * Count of skiing participants * Count of non skiing participants * Event skier counts by division * Event skier counts by group
Closed	L	1.0.1.64	Slalom Entry	Error when exporting data when filtered by Div	Enhanced processing to recognize that Div must be converted to AgeGroup for export filtering.
Closed	M	1.0.1.64	Jump Entry	Error when exporting data when filtered by Div	Enhanced processing to recognize that Div must be converted to AgeGroup for export filtering.
Closed	M	1.0.1.64	Trick Entry	Error when exporting data when filtered by Div	Enhanced processing to recognize that Div must be converted to AgeGroup for export filtering.
Closed	L	1.0.1.64	Running Order	Would like an additional sub header available for information purposes on print outs	Added a text box to add an optional header for the running order print.

Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	L	1.0.1.64	Running Order	Would like the ability to print boat, judges, and scorers forms directly from the running order window.	A new feature has been added to the running order window to print judges and scorers forms. Use the "Print Forms" icon to print the forms for any skiers currently visibily in the running order window. The Trick forms will print 3 forms per skier per round. Also for tricks with 2 rounds the forms will print each skier side by side as there are 2 skiers per page.
Closed	L	1.0.1.64	Running Order	Tournament class automatically sets at highest sanction for tournament. Can you make the program set R for OM-OW and L for everyone else?	When a skier is added to the tournament registration the skier will be assigned to an appropriate class based on the tournament class. For a class R or A or B tournament OM and OW will be assigned to R and B1/B2/M7 up, G1, G2, W7 up will be assigned to E.
Closed	H	1.0.1.64	Trick Calc	A new rule has been passed for 2013 allowing certain flips to be used as positional trick. For example, a BFLB can now be directly followed by BFLF, followed by RBFLB, and then RBFLF	Enhanced code to handle the new rule
Closed	H	1.0.1.64	Trick Calc	A new rule has been passed for 2013 that allows a skier to make a repeat effort to perform a reverse without having to repeat the original. For example, Slide, followed by a reverse Slide, and then a repeat reverse Slide. If the first reverse it is not credit and the second is credit than a score can be given	Enhanced code to handle the new rule
