WSTIMS For Windows
Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	3.0.0.8	Resending trick videos did not send any data	Fixed issue	
Closed	H	3.0.0.8	Overall Summary	When a skier particaptes in more than 1 division then scores for both divisions gets placed in round 1. Should not allow a member id to have a score in the same round regardless of division.	Corrected to check by member
Closed	L	3.0.0.8	CodeValueList	In approved boat list 6.2L Natique missed labeled as H5 but should be H6	Updated
Closed	M	3.0.0.8	Slalom Summary	When using first as the placement option the runoff score does not seem to be used.	There was an issue and the 2nd round was being used as the backup score that took precedents over the runoff value. This has been corrected.
Closed	L	3.0.0.8	Running Order	Event groups not printing on running orders	Fixed
