WSTIMS For Windows
Fixes for Version 1.0.0.64

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	1.0.1.33	Jump Entry	Incorrectly determing longest distance comparing meters on current jump to best distance. Should be chekcing meters only for IWWF and feet for AWSA and NCWSA	Added logic to check the rule set and check feet for AWSA and NCWSA but meters for IWWF.
Closed	H	1.0.1.33	Tournament Package	Not correctly handling regionals and nationals	Corrected
Closed	M	1.0.1.33	Tournament Package	Need validation to ensure primary contact has been filled	Validation added.
Closed	H	1.0.1.33	Slalom Entry, Trick Calc, Jump Entry	Need to provide warning if doing a refresh with RO	Added a warning message when a new group is selected from the dropdown and the RO round is selected.
Closed	H	1.0.1.33	Tournament Package	Zip file is assigning current datetime to all files in zip	Actual file date for each file is now being assigned to the file in the ZIP
Closed	M	1.0.1.33	Slalom Summary	Using wrong speed and rope length with analyzing ties	Needed to get actual last pass speed and rope length rather than using credited speed and rope length
